# Application of Income

## 85% of current year's income must be applied

- Application from loan, corpus donation and income accumulated from earlier years are not allowed as deduction.
- Trust can neither claim loss nor any loss can be carried forward
- Application shall be subject to disallowances specified u/s 40(a)(ia) and 40A(3) – both capital and revenue.
- Application shall be computed on cash basis. (i.e., opening balance of creditors can be added to application and closing balance of creditors shall be reduced from application). Similarly, bank overdraft can be treated at par with creditors as each repayment is difficult to track.

# What if 85% of current year income is not applied?

- Amount to the extent of 15% can be unconditionally accumulated
- The surplus beyond that shall become taxable at applicable rates.
- Surplus can be accumulated vide explanation to Section 11(1) – Form 9A – e-file – state reasons for accumulation – time limit as per the Act is 2 months prior to 139(1) due date – Circular 6/2023 restored it back to 139(1) due date
- Surplus can be accumulated up to 5 years u/s 11(2) – E-File Form 10 stating the purpose of accumulation - time limit as per the Act is 2 months prior to 139(1) due date – Circular 6/2023 restored it back to 139(1) due date – Accumulated funds shall be invested as specified in Section 11(5)
- For condonation of delay in filing Forms 10 or 9A – refer circular 16/2024.  
**Apply within 3 years from the end of the relevant assessment year.**
- ITR 7 vis-à-vis Form 10 – Year wise disclosure table – ITR asks to fill up data financial year wise – Form 10 just asks for year wise data – Is AY or FY meant in Form 10?

## Application out of corpus donation / loan

- Amount applied using corpus donation or loan funds is not allowed as deduction
- If amount once applied from corpus donation is subsequently replenished using current year income, the amount replenished can be claimed as deduction.
- Similarly if loan taken is repaid using current year income, the repayment can be claimed as deduction
- Replenishment of corpus / repayment of loan are subject to restrictions:
  - If amount spent prior to 01.04.2021 is replenished or repaid, no deduction will be allowed, even when the amount spent was disallowed in the relevant year.
  - If replenishment or repayment is after a period of 5 years from the year of spending, no deduction will be allowed. (if loan period is 25 years, deduction will be allowable only for first 5 years)
- Un applied corpus donation shall be invested as specified u/s 11(5)

## Deduction in respect of depreciation (Section 11(6))

- When cost of asset acquired is claimed as deduction, depreciation thereon cannot be claimed.
- In respect of asset acquired out of loan or corpus donation, cost cannot be claimed as deduction. Also there are restrictions regarding claiming deduction in respect of loan repaid / corpus replenished. Therefore, why not claim depreciation on the asset.
- Similar is the case with asset acquired out of corpus donation
- Depreciation is not on the block of assets at Section 32 rate. It shall be as per the accounting principles.
- It may also be noted that depreciation is to be deducted from income and not added to application.

## Donation by one trust to another

- Deduction available to the donor trust will be limited to 85% of the amount donated
- CBDT circular 3/2024

Representations have been received by the Central Board of Direct Taxes (CBDT) raising concerns as to whether the balance 15% of donation to other trust / institution would be taxable or would be eligible for 15% accumulation, since the funds would not be available, having been already disbursed.

CBDT has examined the matter with reference to the issues raised above. Vide Circular No. 3/2024 in F.No.370142/5/2024-TPL dated 06.03.2024, issued today, the matter has been clarified by illustrative examples, for lucid understanding. The said Circular is available on [circular-3-2024.pdf \(incometaxindia.gov.in\)](https://www.incometaxindia.gov.in/circular-3-2024.pdf).

## CBDT circular 3/2024

4. The matter has been examined with reference to the issues raised in paragraph 3 and it is reiterated that eligible donations made by a trust / institution to another trust / institution under any of the two regimes referred to in para 2 shall be treated as application for charitable or religious purposes only to the extent of 85% of such donations. It means that when a trust / institution in either regime donates Rs. 100 to another trust / institution in either regime, it will be considered to have applied 85% (Rs. 85) for the purpose of charitable or religious activity. It is clarified that 15% (Rs. 15) of such donations by the donor trust / institution shall not be required to be invested in specified modes under section 11(5) of the Act as the entire amount of Rs. 100 has been donated to the other trust / institution and is accordingly eligible for exemption under the first or second regime.

# CBDT circular 3/2024

This is illustrated by following example where Trust1, Trust2 and Trust3 are trusts or institutions under any of the two regimes. Further, Trust1 is making eligible donation to Trust2 and Trust2 is further making eligible donation to Trust3.

FA: 2022 – Computation of taxable income resulting on account of certain prescribed non-compliances

AY 2023 – 24 onwards (S – 13(10))

•Currently, there is no explicit provision determining the manner of computation of taxable income resulting on account of non-compliances. **Presently officers tax the gross receipts without allowing application of income.**

•Now, it is provided that the taxable income resulting on account of prescribed non-compliances (such as (a) **not maintaining prescribed books** of accounts, (b) **not filing the TAR/ITR**, and (c) **carrying on commercial activities for consideration** beyond the prescribed threshold of 20%) shall be computed **after allowing deduction of revenue expenditure** incurred in India, but subject to the following conditions:

- Expenditure should not be a donation or contribution to any person.
- Expenditure incurred without withholding appropriate tax or expenditure incurred in cash beyond the prescribed threshold shall not be allowed.
- Expenditure incurred from the corpus or any loan or borrowing shall not be allowed.
- Depreciation on an asset, the cost of which is claimed as application of income in any year, shall not be allowed.

## FA: 2022 – New tax rate prescribed for certain specified income – 115BBI

- Currently, there is an ambiguity on the tax rate that applies, where certain specified income of the trust/ institution become taxable.
- Now, it is provided that **specified income** (resulting from violations such as (i) accumulation of funds for prohibited purposes, (ii) partial application of accumulated funds, (iii) deployment of funds in prohibited investments, and (iv) diversion of income/provision of excessive benefits to trustees/other specified persons) would be taxable at a **flat rate of 30 percent (plus applicable surcharge if any and cess)** without reduction of any expenditure or allowances or set off of losses.
- Other incomes (if any) of the trust/institution will be taxable per the currently applicable provisions

FA: 2022 – Proportionate income (instead of entire income) now made taxable on account of prescribed non-compliance

- It is provided that if trust/institution **diverts income/ provides excessive benefits to trustees/other specified persons or deploys its funds in prohibited investments only that part of income** that is diverted/regarded as excessive benefit/deployed in prohibited investments **would be taxable.** (items iii & iv) in the previous slide
- This position has been upheld in certain rulings even before the amendment. As discussed above, such income will be taxable at a flat rate of 30 percent without any deductions.

# Conclusion

Creating a trust, ensuring compliance and closing down a trust, all require lots of our professional time, effort and stress. Don't forget that we are not charitable institutions. So bill adequately.
